

# The AAPC and Ingenix YOUR ICD-10 EXPERTS

**INGENIX®**

ICD-10-CM

ICD-10-PCS

American Academy of  
Professional Coders

# Two Coding Industry Leaders

COMBINE TO BRING YOU COMPREHENSIVE ICD-10 TRAINING

Ingenix and the AAPC have teamed up to bring you the most comprehensive ICD-10 implementation training plan available. This curriculum, developed by a team of experts led by nationally renowned ICD-10 authority Deborah Grider, CPC, CPC-I, CPC-H, CPC-P, will ensure your organization is fully prepared for the Oct. 1, 2013 implementation date. With several different avenues of delivery available to suit your needs, this training will give you all the tools you'll need for a successful and stress-free implementation.

This training will provide you with:

- **The Right Approach** – expert trainers will provide general and specific training on-site, in public bootcamps, online and in national and regional conferences
- **The Right Curriculum**
  - Specific training in proper code structure with crosswalking and mapping from ICD-9 codes to ICD-10 codes
  - Cross-functional team development, internal system design, business processes and compliance
- **The Right Timing** – a schedule and timeframe that enables implementation with minimum disruption to clinical practice
- **The Right Cost** – all the training your facility needs at a cost friendly to your budget

View ICD-10 now with the AAPC's FREE Code Translator Tool. This easy-to-use code conversion tool allows you to convert ICD-9 codes to ICD-10 codes or vice versa.

# Curriculum

**Initial training will begin in January 2010 with a comprehensive curriculum broken into simple, easy-to-understand tasks and processes. Our ICD-10 experts will teach the implementation process step-by-step to ensure your organization can move forward with confidence into your implementation. You'll receive a robust, executable plan in a setting most ideal for you. Don't risk your revenue — the time to begin is now.**

## Core Implementation Training

The core curriculum is not an academic exercise. It provides guidance and “to do” steps beginning with organizing the implementation effort, developing cross-functional teams, budgeting and policy and process changes and finishing with compliance and code-set training. Each module comes with hands-on exercises using the ICD-10-CM code sets. The curriculum will also include an introduction to ICD-10-PCS beneficial for the facility coder. This will enable any organization to systematically and cleanly make the switch to ICD-10.

Upon completion, you'll have all the knowledge and resources necessary to completely and effectively transition your facility to ICD-10.

# Core Training Options

COMPREHENSIVE TRAINING DONE YOUR WAY

## On-Site Customized Training

Geared toward larger practices, clinics and health plans, this three-day training is delivered at your facility, allowing you to get the personal focus your facility deserves. It begins with an audit of your records to determine specific needs. Templates and tools will be provided on a CD along with the training manual and ICD-10 code books. You can schedule your training at a time that is convenient for you and include as many people as you wish. More than just code-set training, this comprehensive program will address everything you need to know for implementation and is crucial for everyone involved in reimbursement, from physicians and office managers to coders and billing specialists.

**PRICE: CALL FOR QUOTE**

**AVAILABLE SPRING 2010 | 21 CEUs**

## Individual Bootcamp Training

Individual bootcamp trainings are for anyone and everyone involved in ICD-10 implementation. The two-day events are perfect for smaller facilities and individuals who need implementation guidance and prefer to be taught in person. The bootcamps will be held in more than 40 cities and conducted by expert ICD-10 trainers hand-selected to offer the best training available. All aspects of ICD-10 implementation will be covered. Templates and handouts will be provided along with the training manual and ICD-10 code books.

**PRICE: \$1295 (\$1095 FOR AAPC MEMBERS)**

AAPC local chapters receive a 10% discount

**AVAILABLE SPRING 2010 | 16 CEUs**

## Distance Learning Modules

Distance Learning (eLearning) training will be available for those who prefer to learn on their own time and at their own pace. Using the same content as the bootcamps, these modules will cover all aspects of ICD-10 implementation organized in a logical, chronological progression. The course has 17 one-hour modules presented in a webinar format that include professional audio with synchronized presentation slides. The full manual and ICD-10 code book are included.

**PRICE: \$1495 (\$1295 FOR AAPC MEMBERS)**

**AVAILABLE SPRING 2010 | 17 CEUs**

# Supplemental Training Options

SIMPLE WAYS TO GET JUST THE INFORMATION YOU NEED

## For Physicians/Administrators: 15-Minute Webinars

A series of 15 webinars specifically geared for the physician or non-physician practitioner. These modules will be approximately fifteen (15) minutes in length and will cover issues applicable to the practitioner. These brief webinars are for doctors and practice administrators who may not need to be deep in codes but need to be prepared and have responsibility for implementation.

**PRICE: \$295**

**AVAILABLE FEBRUARY 2010 | 4 CEUs**

## For Coders: Distance Learning ICD-10-CM Code-Set Training/Webinars

### Distance Learning Training

Designed to specifically teach the ICD-10-CM code set, including guidelines and hands-on coding scenarios. Specialty-specific distance learning code-set training will be available in the fall of 2011.

**AVAILABLE SPRING 2011 | 3 CEUs**

### Webinars

Monthly hour-long webinars on various topics relating to ICD-10 help coders on the path to implementation. These webinars will offer relevant information and action tips for the most pressing ICD-10 issues.

**AVAILABLE SPRING 2011 | 1 CEU**

## For Everyone: Workshops/Conferences

### Workshops

Half-day workshops will be available in 2011 and 2012 covering specific areas of implementation. The workshops will help you progress through implementation benchmarks and become knowledgeable about the new CM codes and structure. They will be held in over 50 cities throughout the country and will be given by ICD-10 experts.

**AVAILABLE 2011**

### National Conferences

Beginning with the 2010 Nashville National Conference, the AAPC will offer national conference education sessions in the four years leading up to implementation, with the number of sessions increasing each year. These sessions will address the most up-to-date information related to ICD-10 and will help you progress through the steps to implementation. Go to [www.aapc.com/conferences](http://www.aapc.com/conferences) to learn more.

**ANNUALLY 2010-13**

### Regional Conferences

In 2013, the AAPC will host eight Regional Conferences throughout the country to help make sure you are on track for the Oct. 1 implementation date. General, Health Plan and Specialty ICD-10 tracks will be available.

**AVAILABLE 2013**

KNOW YOUR GOAL

## ICD-10 Implementation Benchmarks

SHOULD BE COMPLETED BY:	AREA OF DEVELOPMENT
February 2010	Organizing the Implementation Effort
March 2010	Develop a Communication Plan
May 2010	Impact Analysis
August 2010	Organize Cross-Functional Efforts (for medium to large practices)
August 2010	Budget
Begin By: August 2010	System Design/Development (for medium to large practices)
September 2010	Development of Education and Training Plan
December 2010	Contact System Vendors
September 2011	Implementation Planning
August 2012	Business Process Analysis
September 2012	Phase I Education and Training
Begin By: October 2012	Phase II Education and Training
July 2013	Policy Change Development
September 2013	Outcomes Measurement
May 2013	Deployment of Code by Vendors to Customers
Begin By: October 1, 2013	Implementation Compliance

### ICD-10 Implementation Tracker

This online application is used to track and graphically measure the ICD-10 implementation progress of an individual or organization. The tool lists individual implementation tasks and charts their completion against a recommended completion timeline/schedule to ensure minimal disruption to an organization. All training includes access to this valuable tool. See at [www.aapc.com/icd-10/tracker](http://www.aapc.com/icd-10/tracker).
